### ATTENDANCE

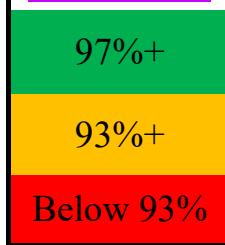

Missing a day here or there might not seem like much, but here are some statistics that might surprise you...

A child with 92% attendance is absent from school for 15 days, which is 3 school weeks.

A child with 88% attendance is absent from school for 23 days, which is over 4 school weeks.

The target that all schools aim for is to have a minimum of 97% attendance overall, and it is important that we all work together to try to get to this number!
